-
- An aerial photograph of a port area. A red line starts from the top left and points towards a blue circle labeled 'tank pool 24'. The area contains several large rectangular structures, likely storage tanks, and a curved road or path on the right side.

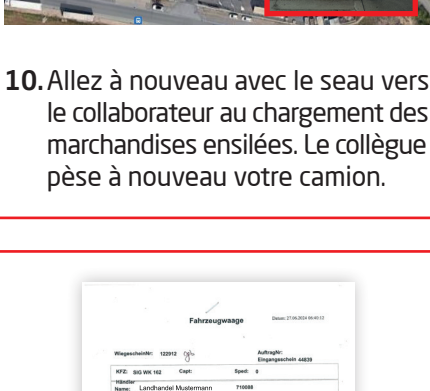

-
- Figure 1 shows two panels of a children's book spread. The left panel features a green, dragon-like creature with a small house on its back. Text boxes provide information about the creature's role in the ecosystem, such as 'The dragon is a predator' and 'The dragon eats the insects'. The right panel shows a similar scene with a different creature and text boxes explaining its role, such as 'The dragon is a predator' and 'The dragon eats the insects'.
